Tuteur entreprise : Ségolène Le Mestre
Lieu : Site de Paris Bercy

Faurecia

New trends and expectations are reshaping the automotive industry. Inspired by the exciting new challenges associated with this revolution, Faurecia anticipates the future of mobility, developing cutting-edge solutions for smart life on board and sustainable mobility. If you're willing to contribute and create value for tomorrow's cleaner and smarter mobility, Faurecia is the place to be.

Our Division Digital Services Factory (DFS) is a transversal team working with the different business groups (BG) that are dedicated to different product families (seatings, interior systems, electronics, clean mobility).

DSF is looking for an Apprentice to support the Innovation Manager for our site in Paris, France.

Descriptif du projet

The Digital Services Factory is a fast-growing team in charge of providing Smart Data Analytics and AI solutions for operations excellence as well as for smart product development, engineering efficiency and enhanced purchasing & finance for the automotive industry.

Méthodologie envisagée

We are looking for an Innovation apprentice / intern who will work with the Innovation Manager on:

- *the framing of the innovation roadmap with our business groups: collect needs, prioritize them, translate them into operational projects, and build the resulting roadmap. Ensure the roadmap is clear to all BGs and agreed by them*
- *the preparation and facilitation of innovation workshops / initiatives: based on BGs' needs, propose to launch fueling workshops when relevant, design, organise and facilitate them*
- *the assessment of ideas to pass the first gate of our management project system, and hand over the project to the product owner: build the value proposal for resulting concepts, from market / consumer needs analysis to financial impact evaluation through*

technical solutions proposal, consulting relevant internal experts and preparing the dossier for Go/No Go decision

Profil(s) recherché(s)

We are looking for one person, preferably with an engineer background, with a strong interest in AI and data environment.

Required personal skills : autonomy, curiosity, good synthesis skills, ability to convince

Expected starting date: from April 1st to September 1st

Professional English level is mandatory to evolve in Faurecia international context.
